Disk 2, time mark 25:57 to 26:22... Change audio:

- From: "If we take our present position, and we draw a line between our position and that silo, that is the danger bearing that we're going to use to guide us in. So let me take that point that I put in there and the silo and draw a line between the two."
- To: "Plot a line from the silo on Sachuest Point in a southeasterly direction tangent to the 30 foot depth contour at Schuyler Ledge; this is our danger bearing"
